COUNTRIES THAT ARE GLOBAL
EXPORTERS OF TRADE PRODUCTS

Tianjin Jinglufa Technology Development Co., Ltd. was Founded in 1998 and headquartered in Tianjin, the company employs over 500 people. It operates three major industrial bases in Tianjin, Hebei, and Shandong (total 55,000m²), with branch offices in Dubai, Moscow, Beijing, Shandong, Tianjin, and Hebei. Its business network covers more than 130 countries and regions. Specializing in large-span aluminum event tents and mobile retractable canopies, the company provides one-stop temporary space solutions for events, sports venues, aircraft hangars, industrial warehousing, logistics, tourism, and hospitality. Key clients include Sany Group, SF Express, and COFCO. Guided by the philosophy of “Professionalism, Integration, Quality, Altruism,” the company offers full-process services from consulting and design to manufacturing, installation, and after-sales support. Committed to standardization, intelligence, and green development, it strives to be a trusted global partner for temporary space solutions.

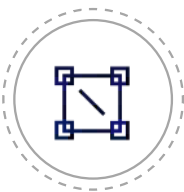

Corporate Philosophy

Quality · Full-
Cycle Assurance

Integrating the entire chain of design, manufacturing, sales, and after-sales, we build an integrated business closed loop, systematically reducing cross-stage communication and coordination costs.

Integration ·
Closed-Loop
Synergy

Driven by scientific management systems and standardized processes for detail control. Delivery is not the end; full life-cycle service is the norm.

Professionalism ·
Scenario
Deep-Dive

Leveraging a full-scenario application atlas across five product lines, we provide end-to-end, precision-tailored solutions that cover needs assessment, custom design, production manufacturing, and after-sales O&M.

Accumulation ·
Altruistic
Partnership

With two decades of deep industry cultivation, we build on our accumulated experience and are committed to altruistic innovation — turning the distilled lessons from countless on-site feedbacks into a continuous driving force for symbiotic progress with our customers, achieving mutual success through growth.

Jinglufa · Milestones

◎ 2002

First production workshop completed in Beijing, taking the first step toward independent manufacturing.

◎ 1998 | First store opened in Beijing, officially marking the starting point of business development.

◎ 2000 | Established the "Jinglufa" brand, defining a clear direction for professional development.

◎ 2007

Large-scale Beijing production base completed, covering over 7,000 m². Production lines for Event tents and Retractable Tunnel Tents officially launched. In the same year, independently developed and successfully erected the first 50-metre span large-scale Event tent, laying the foundation for industry leadership.

◎ 2013 | Tianjin production base completed, bringing the group's total site area to 25,000 m². Added a production line for outdoor camping inflatable tents and further upgraded the automated high-standard workshop.

◎ 2016 | Shandong production base completed, total group site area reaching 35,000 m², with over 400 employees.
- Provided the longest slide in Asia for Jingzhihu Resort, successfully entering high-end cultural tourism scenarios.

◎ 2018 | Established overseas sales team; products exported to Europe, the Americas, and other countries.

◎ 2021 | The company reached a milestone evolving from "technology self-reliance" to "global leadership". In Europe, North America and other high-end markets, domestic Event tents surpassed the market share of traditional European incumbents (e.g., RÖDER, HÖCKER) for the first time.

◎ 2022 | In response to the global pandemic, the company rapidly deployed Event tent products for use in temporary hospitals, vaccination centres, and quarantine sites. Leveraging fast erection, safety, reliability, and significant cost advantages, successfully completed multiple emergency support tasks. Since then, the company's business scope has expanded comprehensively from traditional "event facilities" to a global provider of public space solutions.

◎ 2023

Established a cultural tourism subsidiary, starwild glamping, and set up dedicated new teams including an Engineering Department, Sales Operations Centre, and R&D Department. Group performance exceeded RMB 300 million, capturing market share nationwide, opening a new chapter.

- Supplied epidemic prevention and security checkpoint Event tents for various locations, supporting public safety.

- Built camp restaurant Event tents for RYBO Changyu Group, promoting the upgrading of tourism business models.

◎ 2003 | Set up the sales & marketing system at Beijing Jingkai Building, gradually building a nationwide sales network.

◎ 2004-2006

Group performance successively exceeded RMB 40 million, 60 million, and 80 million, entering a stage of scaled development.

◎ 2009 | Group established a nationwide after-sales service team; became a leading enterprise in the industry offering comprehensive solutions integrating R&D, design, production, and after-sales service.

◎ 2010 | Product technology breakthrough, marking the beginning of domestic substitution. Group performance exceeded RMB 200 million.

- Successfully cooperated with the first Beijing International RV & Camping Exhibition, independently setting up 200,000 m² of large-scale Event tents for the event. In the same year, achieved a major technological leap: pioneered the domestic production of large-span and special-shaped Event tents, successfully mass-producing 40-metre span A-frame tents, 50-metre span arch tents, and 20-metre diameter dome tents, with performance comparable to imported products at only 1/3 of the price, rapidly driving the substitution of imported Event tents with domestic alternatives.

◎ 2024

he group reorganised into five business divisions based on product characteristics, achieving specialised and refined operations while supporting the group's full-scenario layout:

• Tent & Supplies Division: Focuses on emergency rescue, military training, disaster relief supplies, etc., providing rapidly deployable tent solutions.

• starwild glamping subsidiary (Hotel Tent Division): Deeply engaged in cultural tourism real estate, scenic spots, campsites, etc., delivering high-quality hotel tents and supporting services.

• Tarpaulin & Cover Division: Specialises in outdoor temporary protection and machinery protection, offering customised tarpaulin covers.

• Event Tent & Retractable Tunnel Tent Division: Focuses on large-span aluminium alloy Event tents and mobile Retractable Tunnel Tents, providing one-stop temporary space solutions widely used in large events, sports stadiums, aircraft hangars, industrial warehousing, logistics, etc.

• Outdoor Inflatable Division: Provides OEM services for renowned outdoor brands while offering quality factory-direct products to camping users.

◎ 2025

Hebei production base completed, with total group site area reaching 55,000 m². Established subsidiaries in Russia and Dubai, providing local technical support, rapid response, and full-process services for overseas markets, accelerating the global service network layout.

- Customised storage Retractable Tunnel Tents for multiple regional branches of Wahaha, Nongfu Spring, Ganten, and Jinmailang Group, deepening cooperation with the fast-moving consumer goods industry.

- Built eco-friendly storage Event tents for recycling enterprises such as China Resources Recycling Group, Zhonghua Renewable Resources, and Haier Recycling, supporting the development of the green circular economy.

◎ 2026

Expanded the Luneng International Marketing Centre, taking the "Jinglufa" group brand as the core to build a global network for modular space solutions, striving to become an internationally leading provider of temporary building systems.

One-stop comprehensive solution

01-Site Survey

Professional site survey services that precisely meet project requirements and comprehensively assess site conditions, ensuring smooth progress of subsequent work.

02-Planning & Design

Professional planning and design capabilities, grounded in feasibility and driven by return on investment, delivering scientific and rigorous implementation plans.

03-Quality Inspection & Trial Assembly

Professional quality inspection and trial assembly process, verifying structural stability through installation testing, with strict quality control at every stage, forming a closed-loop quality management system.

04-Shipping & Acceptance

Professional shipping and acceptance system, efficiently organizing delivery and handover to achieve zero-error acceptance, ensuring complete and timely material supply.

05-General Contracting & Construction

Professional construction team combining efficient installation with finishing expertise, maximizing construction efficiency while ensuring project quality.

06-After-Sales Service

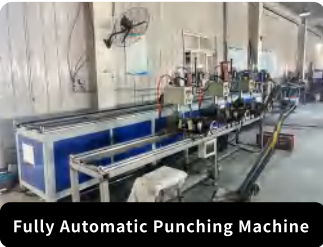

Professional after-sales service network that responds quickly to customer needs, providing full-cycle, comprehensive support.

01 Ridge event tent

The ridged tent – perfect combination of stability and aesthetics. The unique ridge design enhances structural stability while giving an elegant and grand appearance. Spacious interior provides comfortable conditions for various outdoor events, exhibitions, celebrations, etc.

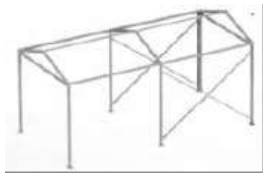

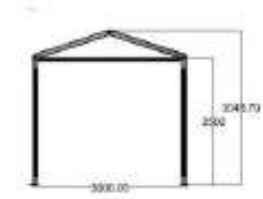

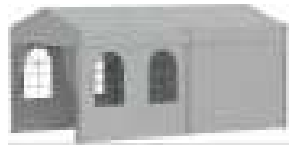

Product Features

- 1、Modular structure – length can be extended in 3 m or 5 m increments.
- 2、Short installation time, easy assembly and disassembly.
- 3、Hot-dip galvanized steel connections – interchangeable components.
- 4、Flexible site installation – can be set up on beaches, lawns, or even over water.
- 5、Size customization based on intended use or scale.
- 6、Full range of accessories available.

The conical tent is a versatile and adaptable temporary building with an aluminum alloy frame and a conical roof. Ideal for exhibitions, auto shows, celebrations, and other events, offering spacious indoor area. Easy to install and transport, aesthetically pleasing – an excellent choice for outdoor events.

Product Features

- 1、Sturdy, elegant, modern.
- 2、Short installation time, easy assembly and disassembly.
- 3、Few components, compact, easy to erect.
- 4、Can be used standalone or connected via gutters to form larger configurations.
- 5、Widely used for celebrations, commercial exhibitions, and events.

The curved roof tent features an arc-shaped roof with smooth lines and an attractive appearance. Ideal for outdoor events and celebrations such as weddings, exhibitions, concerts, etc. Structurally stable, easy to assemble and disassemble, customizable – can be tailored to different needs. Provides larger space and better visual impact, adding atmosphere and highlights to events.

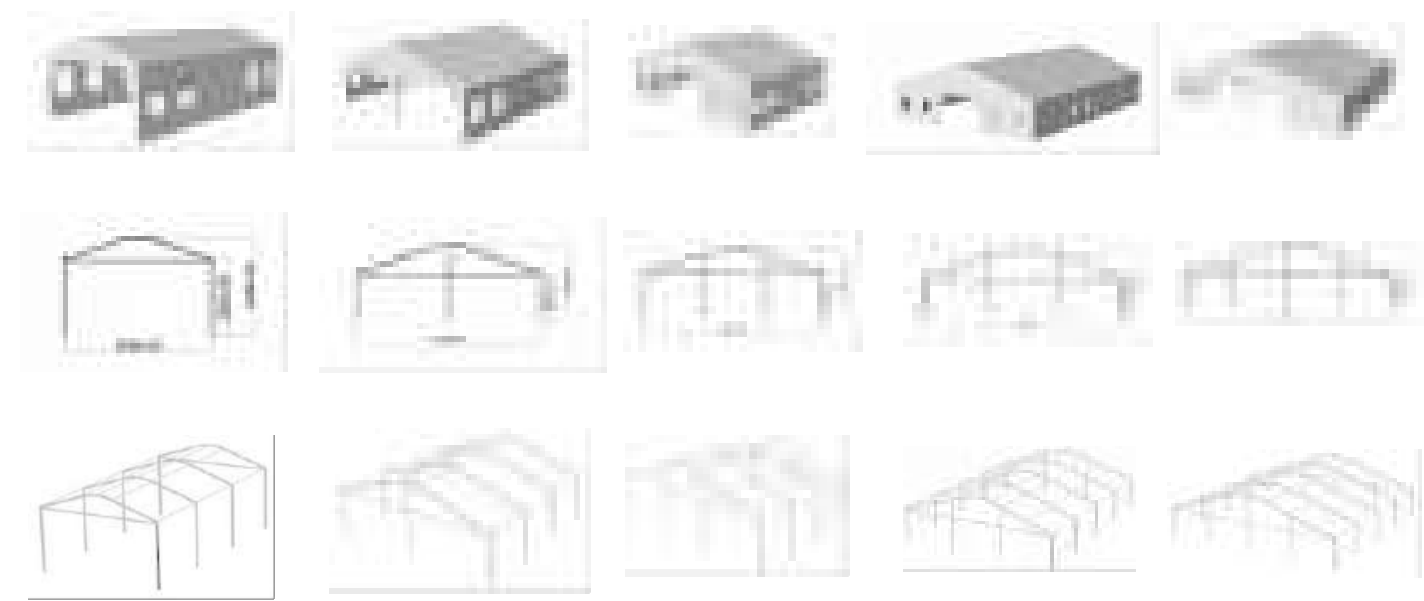

Product Features

- 1、Elegant curved roofline design – interchangeable components; flexible conversion from curved to gable roof.
- 2、Full range of accessories available.
- 3、Optional extended eaves.
- 4、Modular structure – short installation time, easy assembly and disassembly.
- 5、Multiple sizes available.

The arch tent features curved trusses as the main load-bearing structure, with a smooth arch roof. A modular prefabricated temporary building offering ultra-large span, column-free interior, and strong wind/snow load resistance. Widely used for large outdoor events, sports halls, industrial storage, etc.

Product Features

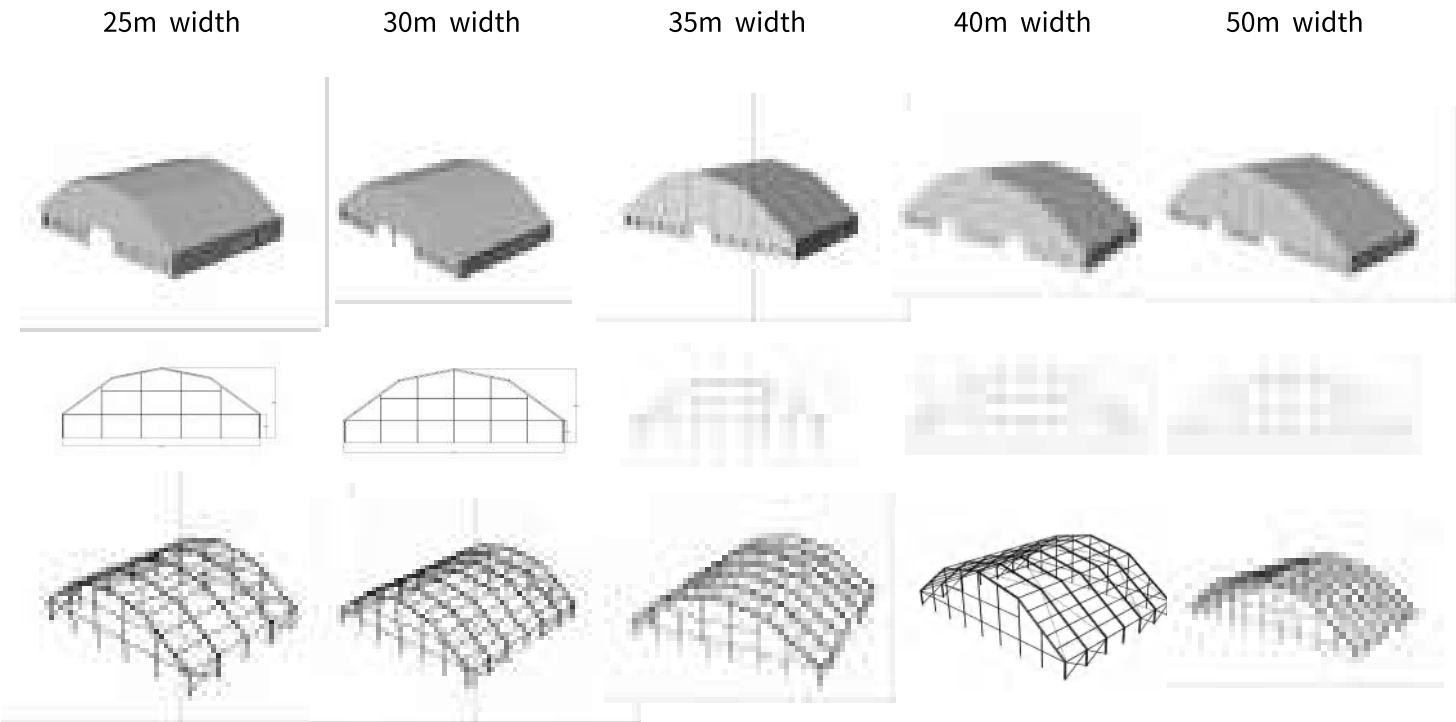

- 1、Elegant arch appearance – tall and spacious interior.
- 2、Modular structure – short installation time, easy assembly and disassembly.
- 3、Fabric tension system – windproof and waterproof.
- 4、Reusable and easy to transport.
- 5、Can meet special design requirements.
- 6、Strong wind resistance – safe and stable.

Peaked tents are typically created by combining standard party, festival, wedding, or large event tents with peaked or ½ polygonal units to form various uniquely shaped modular combinations. The distinctive appearance is often used for upscale outdoor events. Advanced design, safe and stable, easy to assemble/disassemble, compact for storage and transport.

Product Features

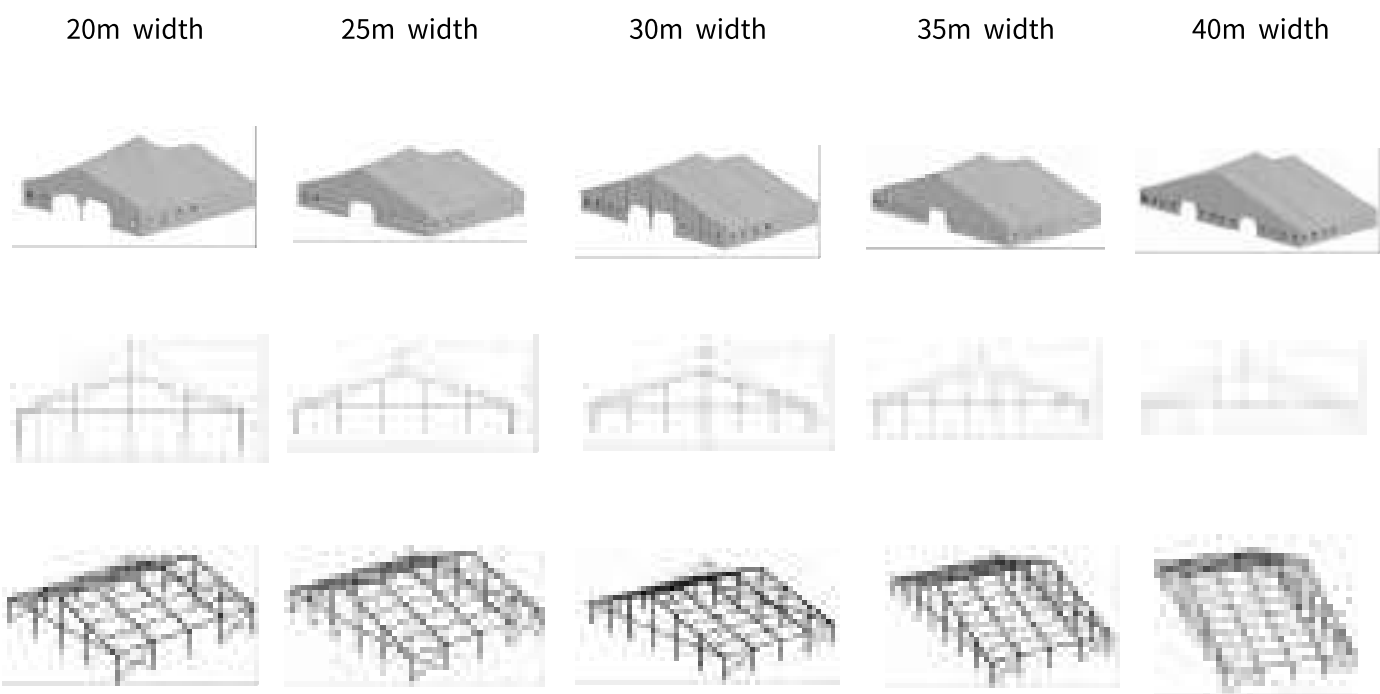

- 1、 Short installation time, easy assembly and disassembly.
- 2、 Attractive peaked appearance – beautiful and unique.
- 3、 Flexible frame allows combination with polygonal units.
- 4、 Full range of accessories available.
- 5、 Advanced design, safe and stable.
- 6、 Suitable for premium outdoor events.

Polygonal tents come in two roof styles: diamond peak and standard peak. Sizes range from 6 m to 50 m, with 6-sided to 12-sided options. Suitable for parties, weddings, and grand banquets. Can also combine with gable or peaked tents to form unique hybrid structures. High-strength aluminum alloy frame, double-sided flame-retardant PVC fabric – windproof, waterproof, flame-retardant, UV-resistant.

Product Features

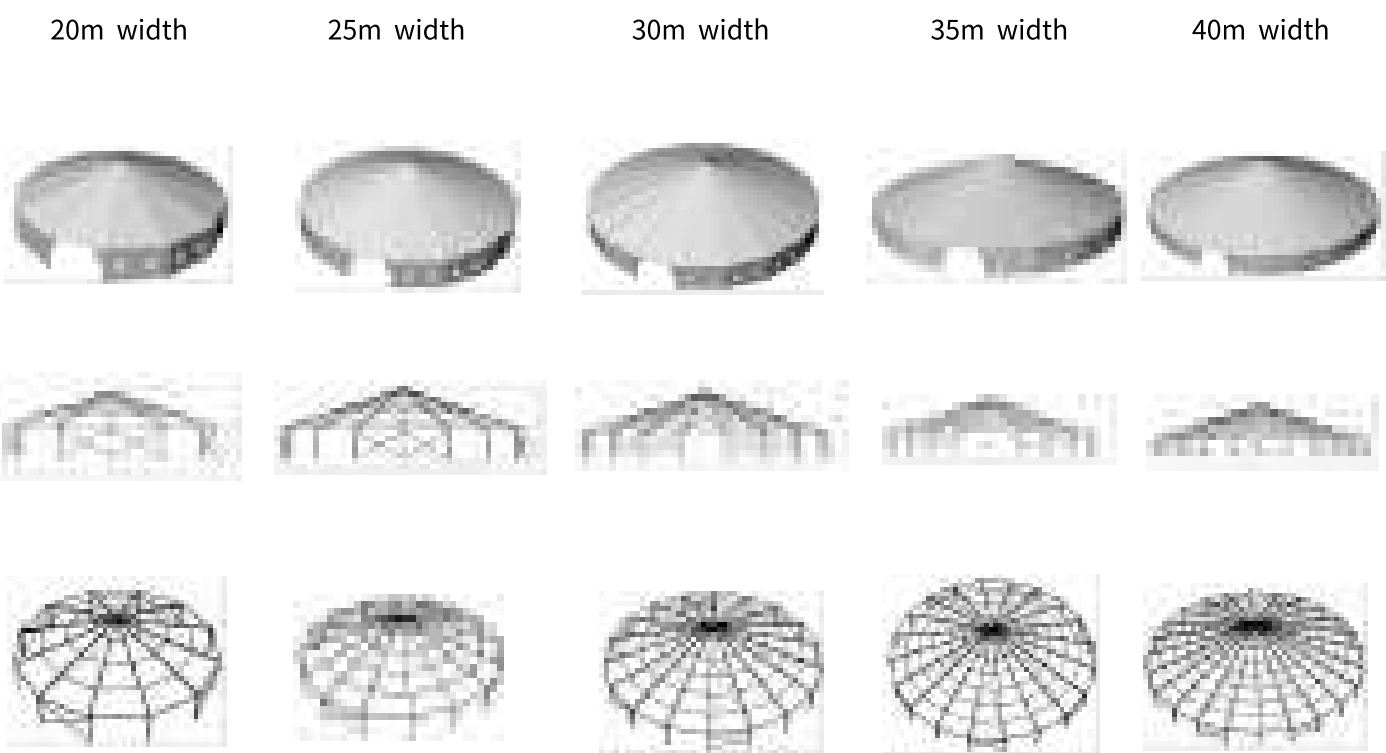

- 1、 Short installation time, easy assembly and disassembly.
- 2、 Can be used as temporary or permanent structure.
- 3、 Two elegant design options: diamond peak or standard peak.
- 4、 Elegant polygonal space – no additional interior decoration required.
- 5、 Flexible combination with gable tents for even more unique shapes.
- 6、 Durable and wind-resistant.
- 7、 Full range of accessories available.

Two-Storey Tent

A two-storey tent consists of two levels, offering large internal space and structural stability, suitable for various outdoor activities and exhibitions. The interior can be decorated and arranged to meet different event needs.

Three-Storey Tent

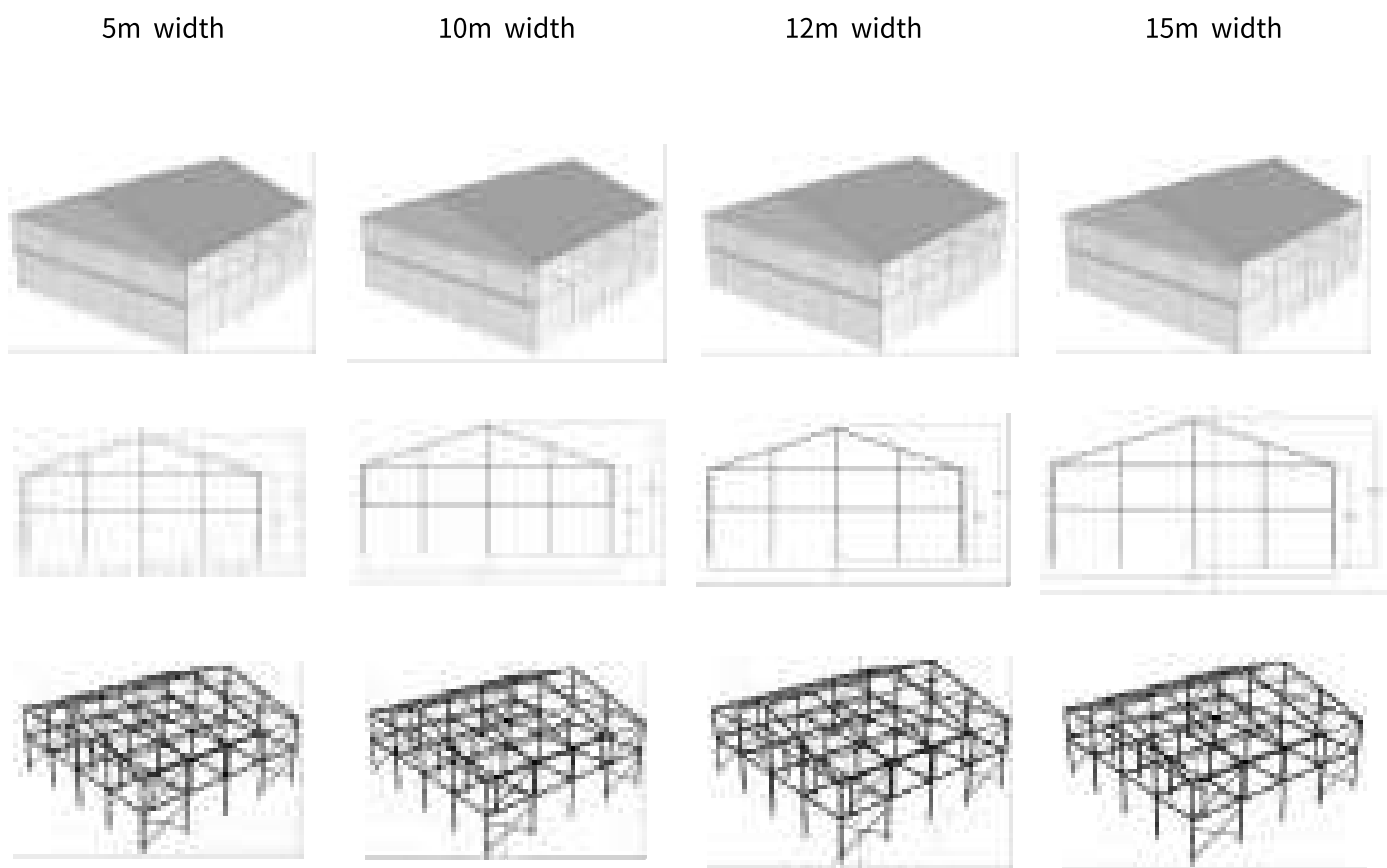

An innovative improvement on the two-storey design, offering greater space utilization and higher stability. More diverse in appearance and structure, fully customizable. Compared to two-storey tents, it provides more functional zones and better visual impact, ideal for large-scale and high-end events.

Product Features

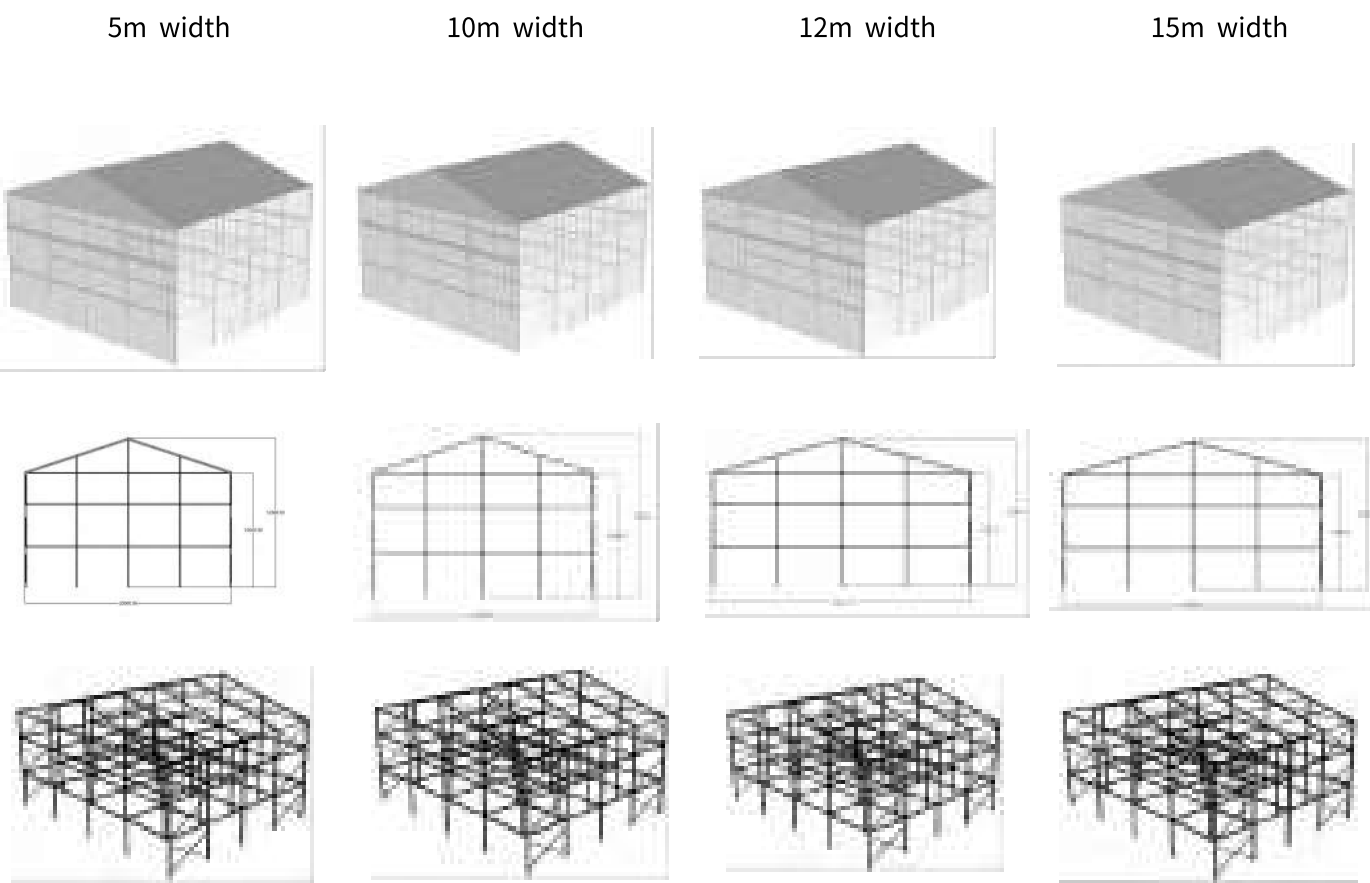

- 1、Modular design – short assembly time, reusable, lightweight for transport.
- 2、Two-storey design doubles usable floor space (200% utilization).
- 3、Eave valance provides extra banner advertising space, offering clients a better branding platform.
- 4、Optional indoor/outdoor aluminum staircases and second-floor balcony.
- 5、Tension bar system; full range of accessories available.

The dome event tent is a unique and innovative temporary structure with a rounded, full exterior. Designed for both artistry and practicality, its interior is spacious and high-ceilinged. Strong stability, excellent wind resistance, low site requirements – suitable for a variety of outdoor events and exhibitions. Provides a flexible, comfortable, and multi-functional temporary space, ideal for modern event planning.

Product Features

- 1、 Easy disassembly, labor- and space-efficient for transport and storage.
- 2、 Galvanized steel pipe frame + waterproof PVC transparent fabric – withstands Beaufort scale 8–10 winds, high structural strength, high safety factor.
- 3、 Highly flexible and adaptable for different applications.
- 4、 Durable fabric – fireproof, waterproof, windproof, corrosion-resistant, UV-resistant.
- 5、 Strong snow and wind load capacity due to base connection design.
- 6、 Innovative flexible design brings more variety to events.

11 Sports event tent structure

The sports tent features a high-strength aluminum alloy frame and reinforced flame-retardant PVC fabric. Large-span, column-free design creates a spacious interior perfect for basketball, badminton, table tennis, tennis, fitness training, and other sports activities.

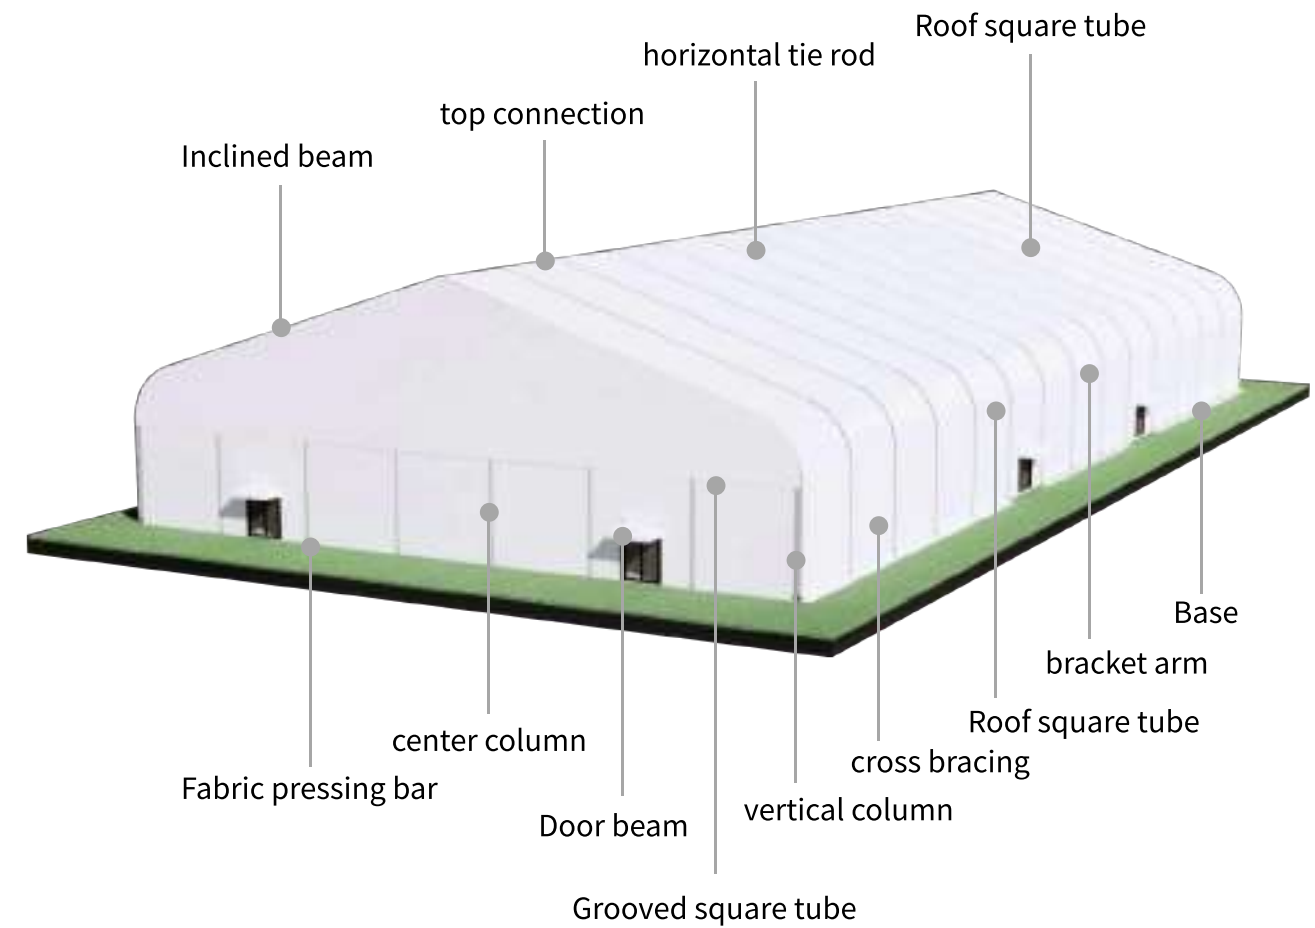

Quick to install, no complex groundwork – ready for use rapidly. Waterproof, UV-proof, wind- and snow-load resistant – all-weather durable, not restricted by season or weather. Customizable span, length, and height to fit different site sizes.

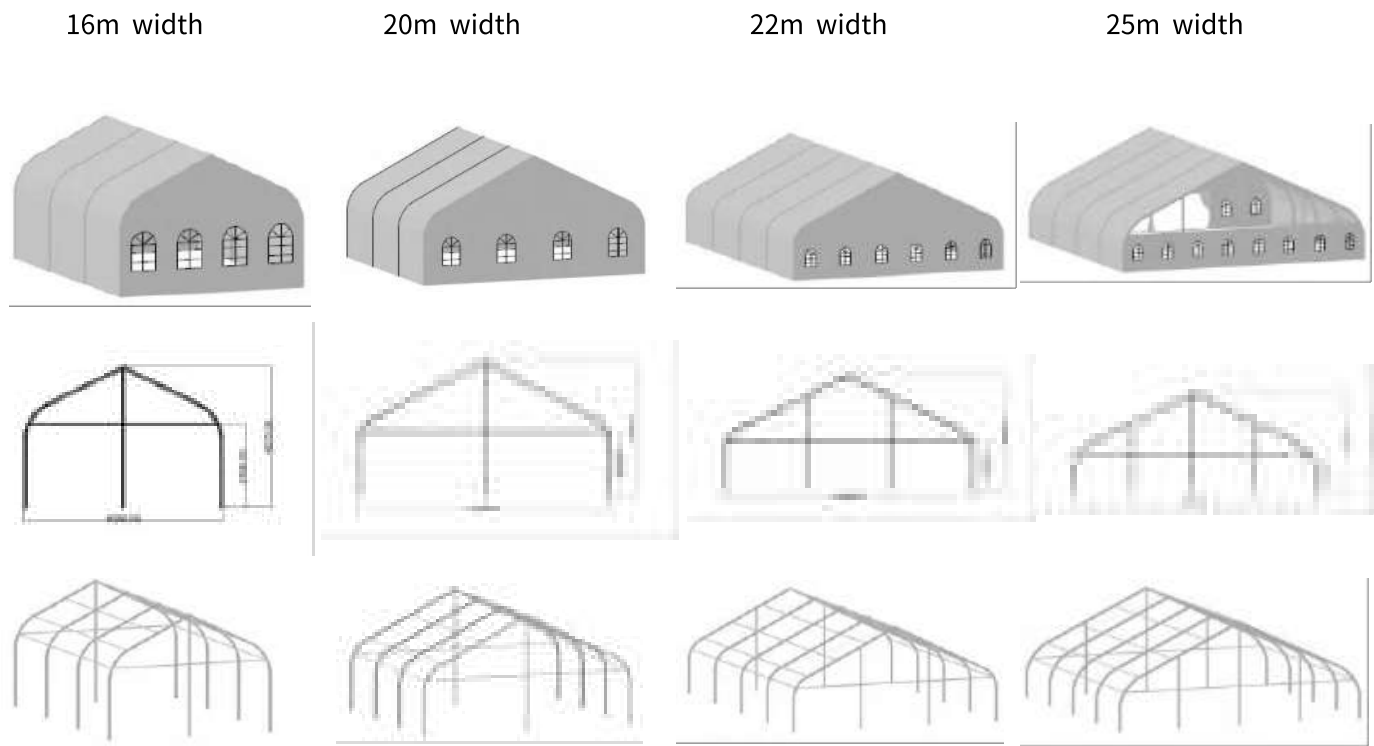

Easy to dismantle and reuse, significantly reducing construction costs.

Product Features

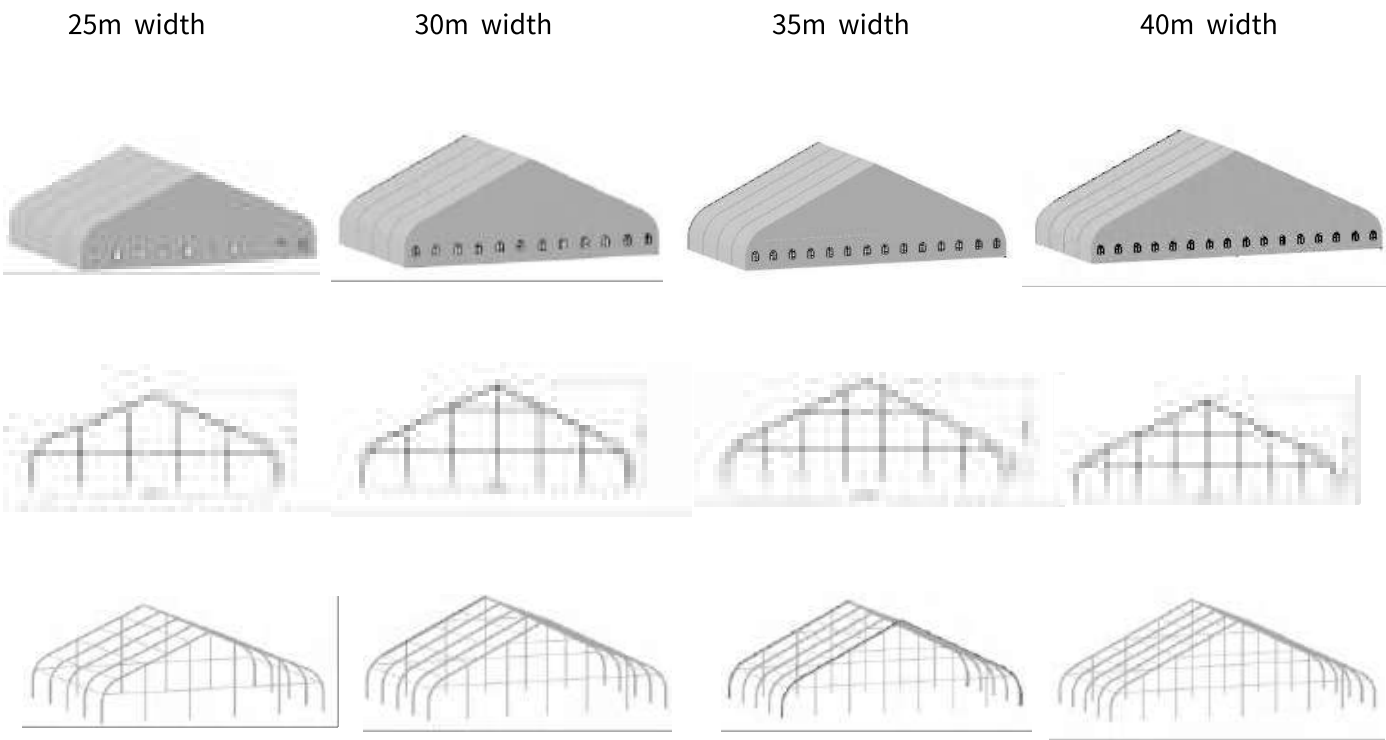

- 1、Modular structure – fast on-site assembly, no complex foundations, ready for use in short time.
- 2、Column-free large span – unobstructed interior suitable for multiple sports (basketball, badminton, tennis, etc.).
- 3、High-strength aluminum frame + PVC fabric – stable structure resistant to high winds and snow loads.
- 4、Fabric is waterproof, UV-resistant, flame-retardant, anti-aging – usable in rain or shine, not restricted by weather.
- 5、Fully demountable and relocatable – high reuse rate, ideal for tournaments, training camps, temporary venues, etc.
- 6、相Lower cost and simpler permitting compared to traditional gymnasiums – no long-term groundwork investment; excellent cost-effectiveness.

The Atrium Event Tent is a high-end temporary/semi-permanent structure combining modern architectural aesthetics with modular technology. Defined by a high open atrium and large transparent enclosures, it prioritizes natural light and elegant ambiance for premium outdoor and commercial temporary spaces.

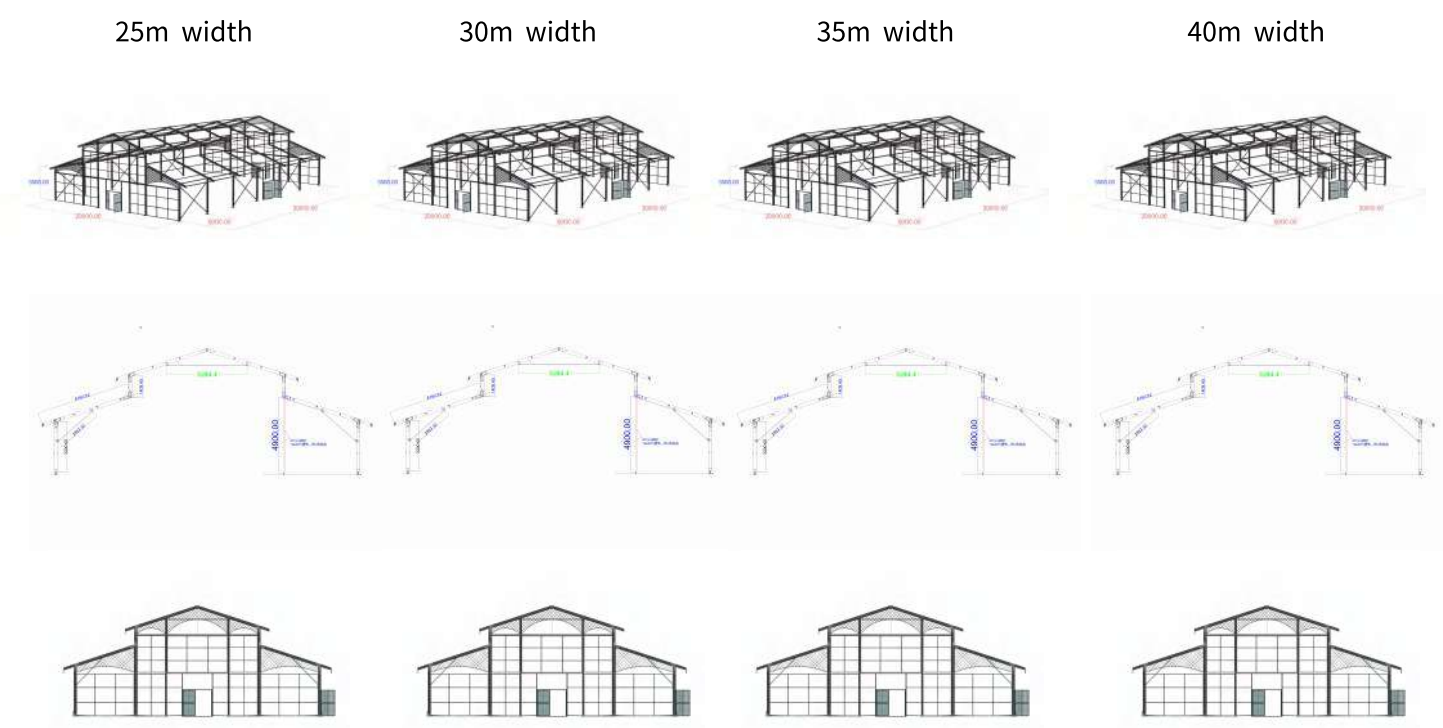

Inspired by the architectural "atrium" concept, this tent features a large-span, high-peak, fully or semi-transparent modular structure. Unlike traditional low-profile tents, it emphasizes spatial openness, daylighting, and visual integration of interior and exterior, offering the flexibility of temporary structures with the finish of permanent buildings.

Product Features

- 1、 Transparent roof and sidewalls** allow ample natural light, reducing the need for artificial lighting during the day; at night, lighting creates a dreamy effect.
- 2、 Span up to 80 m, unlimited length** – column-free interior offers high layout flexibility.
- 3、 Aluminum frame + wind-resistant design** withstands Beaufort scale 8–10 winds; fabric/glass meets flame-retardant, waterproof, and anti-aging standards.
- 4、 Modular prefabrication** – bolted assembly on site; thousands of square meters can be installed within days; reusable and relocatable.
- 5、 Fully customizable** in size, shape (curved roof, peaked roof, single slope), color, cladding material, and functional configurations to fit site and style.
- 6、 Modern elegant or vintage exquisite appearance** significantly elevates the event's profile, suitable for weddings, banquets, high-end exhibitions, etc.
